

Ryu Morgan

Full-Stack Software Developer

[linkedin.com/in/ryu-morgan](https://www.linkedin.com/in/ryu-morgan) | Philadelphia, PA | 610-401-8045 | ryukmorgan730@gmail.com | github.com/Ryu-Morgan

Skills

- Python | Java | React | Go | C/C++ | SQL | TypeScript | JavaScript | C# | API Development | AWS | Git | Github | Unit Testing | Linux
- Ansible Playbooks | Material-UI | Jest | JUnit | Agile Methodologies | Docker | Kubernetes | Automation | Frontend | Full-Stack | Backend

Experience

Back End Developer Co-op

Comcast

Philadelphia, PA, USA

April 2024 to
Present

- Developed a script that uses the AWS web API to orchestrate Ansible playbooks, automating the restart of data center services on specific servers. Integrated MySQL database to enable a scalable retrieval feature and automated restart of multiple active servers, significantly enhancing operational efficiency and reducing manual intervention
- Enhanced the functionality of a Python script for configuring Raritan Power Distribution Units (RPDUs), enabling users to automate the configuration of over 1200 new version machines
- Implemented unit testing for REST API functionalities using Python. Improved code reliability and ensured quality feature integration while achieving a code coverage range of 80 percent.
- Held code reviews to ensure adherence to coding standards and best practices while providing and receiving constructive feedback. Reviews involved testing, reading, analyzing, & presenting code.

Full-Stack Software Engineer Co-op

Comcast

Philadelphia, PA, USA

April 2023 to
September 2023

- Collaborated with various software developers to build and maintain an in-house developer portal that will store over 8,000 applications
- Spearheaded unit testing implementation in Jest and GoLang across various front-end and back-end services, ensuring reliable code. Achieved a code coverage range of 80-88% throughout diverse codebases, effectively minimizing numerous errors before production
- Contributed to developing and maintaining Concourse pipelines for various services through the creation of tasks, ensuring the pipeline operates as intended and improves the CI/CD process
- Implemented TypeScript and React features enhancing functionalities regarding front-end services

Software Developer Co-op

Conrail

Mount Laurel, NJ, USA

March 2022 to
September 2022

- Designed and developed an application using C# and SQL to streamline data collection for the Risk & Safety department
- Collaborated with SQL and .NET developers to conceptualize full-stack solutions and approaches for development issues.
- Utilized UX/UI principles and communicated with various departments, using client-side and server-side programming, to create data-driven user interfaces.

HCI(Human-Computer-Interaction) Research Apprenticeship

Drexel Undergraduate
HCI Research

Philadelphia, PA, USA

December 2021 to
March 2022

- Formulated a virtual design procedure that optimizes the role of participants in a virtual environment using existing software.
- Collected and organized real-time data by working with human factors engineers to conduct a live virtual design presentation.

Projects

Spotify Top Song Finder: Developed a script using the Spotify web API to find the top 3 songs of a given artist. Planning to implement a feature for playlist creation through the web API. **July 2024 to Present**

Banking System Project: Developed a banking system through Test-Driven-Development in Java utilizing polymorphism to refactor and improve code. Created 400+ unit tests and implemented account creation, depositing, withdrawing, and transferring features. **September 2023 to December 2023**

Budgeting Website • Dev Lead: Led a team in an agile setting that enables users to create custom budgets. Implemented React on the Front End creating reusable components and PHP on the backend creating a feature to authenticate users. **January 2021 to April 2021**

Education

Bachelor of Science in Software Engineering

Drexel University

Philadelphia, PA, USA

Anticipated
Graduation: Spring
2025

Awards

- A.J. Drexel Scholarship - Academic Scholarship

Organizations

- Member of Drexel National Society of Black Engineers- February 2021 to present
